

Understanding Medical Education

Evidence, Theory and Practice

Edited by **Tim Swanwick**

Director of Professional Development in the London Deanery
Visiting Fellow at the Institute of Education
Visiting Professor of Medical Education at the University of Bedfordshire

For the first time in a single core textbook, the Association for the Study of Medical Education presents a complete and authoritative guide to medical education. Written by leading experts in the field, *Understanding Medical Education* provides a comprehensive resource of the theoretical and academic bases to modern medical education practice.

This accessible and timely reference is designed to meet the needs of all those working in medical education from undergraduate education through postgraduate training to continuing professional development. As well as providing practical guidance for clinicians, teachers and researchers, *Understanding Medical Education* will prove an invaluable resource to those studying at certificate, diploma or masters level and a first 'port-of-call' for anyone engaged in medical education as an academic discipline.

Exploring medical education in all its diversity and containing all you need in one place, *Understanding Medical Education* is the ideal reference not only for medical educators, but for anyone involved in the development of healthcare professionals, in whatever discipline wherever they are in the world.

28. Developing medical educators: A journey, not a destination (Yvonne Steinert)
29. Educational leadership (Judy McKimm and Tim Swanwick)

Index

Association for the Study of Medical Education

The Association for the Study of Medical Education (ASME) seeks to improve the quality of medical education by bringing together individuals and organisations with interests and responsibilities in medical and healthcare education. The association is unique in that it draws its members from all areas of medical education and from all specialties. It provides a forum for debate and the exchange of information, and an international network for the promotion of knowledge and expertise in medical education.
